OneCan® U.N. Stackable 10 & 12.5 Litre

OneCan® Stackable Jerry Cans

In addition to our current 10 & 12.5 Litre OneCan® containers we are proud to announce our new OneCan® 10.0 Litre [AdBlue](#) Stackable Jerrycan, specifically designed to hold diesel exhaust fluid (DEF) AKA AdBlue. Designed for ease of use it comes complete with a no leak pouring spout & closure. Decoration is also available by means of sleeving. This offers maximum promotional surface area for strong shelf appeal. Our UV water resistant sleeves offer excellent print quality and are made from 100% recyclable PE.

Available in 10 & 12.5 Litre sizes & the following colour options

OneCan® Unique Design & Features

- Visually appealing design
- Large panel area for labelling display
- Corporate logo embossing available
- Corner ribbing on sides and base for enhanced stacking
- Ergonomic handle design (smooth grip)
- Food contact & migration compliant
